THE
Summer

PRODUCT CATALOG

EVAPORATIVE AIR COOLER

Evaporative Air Cooling is the most efficient and environment - friendly cooling technology which works on the principle of heat absorption by water evaporation.

A pump circulates the water from the tank on the cooling pads and make it wet.

A fan/ blowers draws hot air from outside the unit and sucks it through the moistened cooling pads.

As air passes through the wet pads it gets cooled by evaporation.

Then the fan/ blower are sized and designed to deliver the appropriate air flow.

BENEFITS OF CALIBRATEINDIA AIR COOLERS

RUNS AT THE OPERATING COST OF FAN

WORKS ON INVERTER

USE IT OUTSIDE
USE IT INSIDE

DELIVERS FRESH & COOL AIR

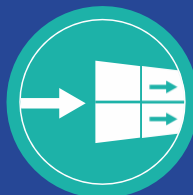

COOLING TIPS

SWITCH ON THE COOLING MODE

ENSURE SUFFICIENT WATER IN TANK

KEEP WINDOW/ DOOR OPEN FOR CROSS VENTILATION

REPLACE THE COOLING PADS WHENEVER REQUIRED

EXPERIENCE REFINED COOLING PERFORMANCE & DIVERSE RANGE OF AIR COOLER

Calibrateindia offers a host of AIR COOLERS suited to the varying cooling needs of our country. Be it Desert Coolers, Personal Coolers or Tower Coolers. You can choose from our diverse range what works best for you.

Our Air Coolers comes with Honey Comb padding that ensures efficient and effortless cooling regardless of the climate outside.

Standing to the values, always believed in improving lives through technology. Hence with MAKE IN INDIA concepts, we forward a Legacy of many years by designing the products – that are user friendly, innovative and long-lasting.

Now brought up a wide range of Air Coolers with best of the quality and pushing technological boundries, we aim to make the cosumer life easier.

CALIBRATEINDIA AIR COOLERS
